Comment : I feel that CW is compared to the Model-T Ford, or an airplane to landing on the moon. It has its place, I am sure. But the newer radios, and computers, and data modes, have about replaced CW... I feel that with band plans, if you want to use CW, then use it in that part of the band plan, and all others without passing CW, stay out of that part of the band all together. I think its time we catch up with the rest of the world, and drop CW to opp on HF...The model-t is gone, as well as the bi-plane, and CW should also be dropped. Time to catch up with the hi-tech new world..  
Thank You for reading this, and all the fine work being done to keep "Amateur Radio" Alive.

Robert Pepper, N4NUM
